

Waste Reduction

Compost - Collect all vegetable and fruit peels, eggshells, coffee grounds and tea bags from meal preparation. Place in lidded containers provided. When full take out to the compost pile. Use the bins provided and follow the instructions. Remember to add leaves and water with your kitchen waste. Composting can reduce waste going to the landfill by 30-50%.

Reduce - Please use "Meals at Brightwater: A Guide to Parents and Teachers", pages 1-8 to help you to reduce waste when making your food purchases.

Reuse - Please wash all re-useable containers and send them home with campers.

Recycle - The following are all recyclable at the Corman Park Landfill or in Saskatoon at the SARCAN Processing Centre on Melville Ave.

Cardboard - flattened, unwaxed

Paper - recycle newsprint, bond, mixed

Dairy cartons and jugs - rinse and flatten

Tin cans - rinse, remove label, top and bottom lids and flatten, be careful with sharp lids

Glass - wash, remove lids (place metal with tin cans, plastic with plastic)

Plastic - wash

Beverage Containers - rinse and separate, juice boxes, aluminium cans, plastic bottles, glass bottles - leave in the bins in the hall.

Thanks for reducing waste at Brightwater!
Every little bit helps!
