Prescribed burn to take place at Brightwater Centre during week of October 21-25

For immediate release: October 18, 2024 – 12:45 p.m.

Saskatoon Public Schools' Brightwater Science & Environmental Centre will be overseeing a prescribed burn the week of October 21-25, 2024. The Brightwater Centre is located along Beaver Creek, about 15 kilometers south from the edge of the city on Highway 219.

The burn is to manage vegetation and reduce wildfire risk, ensuring a healthier and more resilient ecosystem. It's being undertaken in cooperation with fire authorities and in accordance with controlled burn safety procedures.

Area residents may notice smoke in the vicinity during this period but are asked to refrain from driving over to take a closer look. This is to keep the road open for regular traffic, as well as vehicles supporting the burn.
